

## **VILLAGE OF UPPER NYACK PROJECTS**

### **ANNOUNCEMENT**

The Village of Upper Nyack has commenced a significant drainage project with the closing of North Broadway for limited times. Be aware of signage for detours and proceed slowly through all work areas.

### **SEWER REPLACEMENT PROJECT**

With the installation of the replacement lines for sewers complete on N. Midland (Old MT Rd to Foss Drive), Foss Drive, Oak Hill Drive and Spook Hollow Road, the restoration, patching and clean-up work of the areas is in progress.

The Village will provide information in the near future with a firm date for final restoration and paving of the trenching.

The Village Board thanks you for your continued patience as this very necessary project comes to its conclusion.
